SpendWise: A Simple Backend Learning Project

Ideation Phase

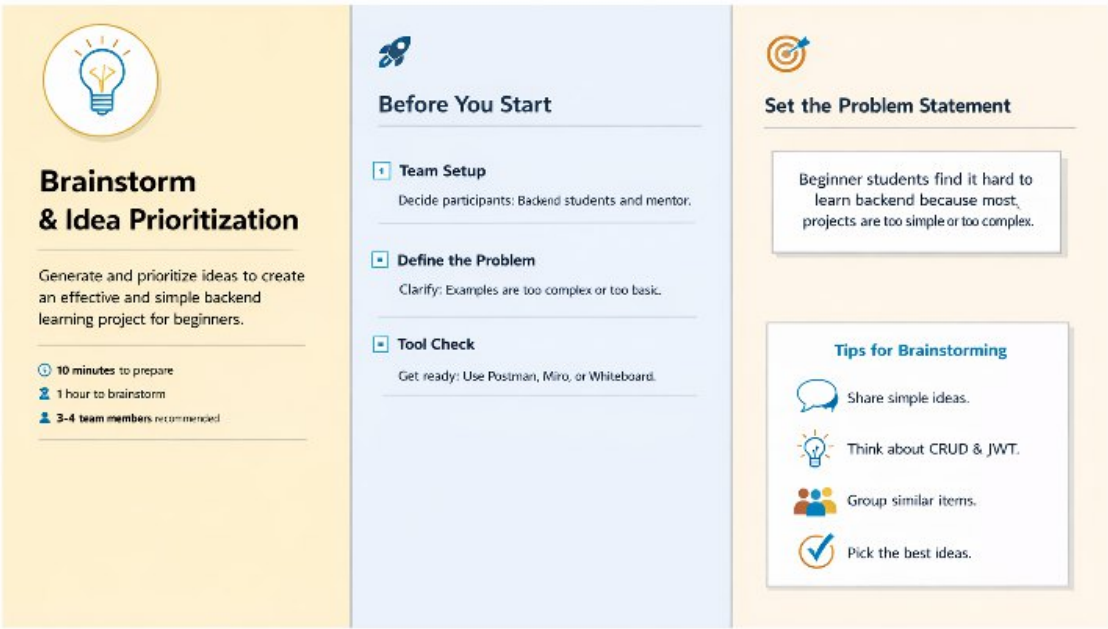
Brainstorm & Idea Prioritization

Date	13 February 2026
Team ID	SWTID-2026-3987
Project Name	SpendWise
Maximum Marks	4 Marks

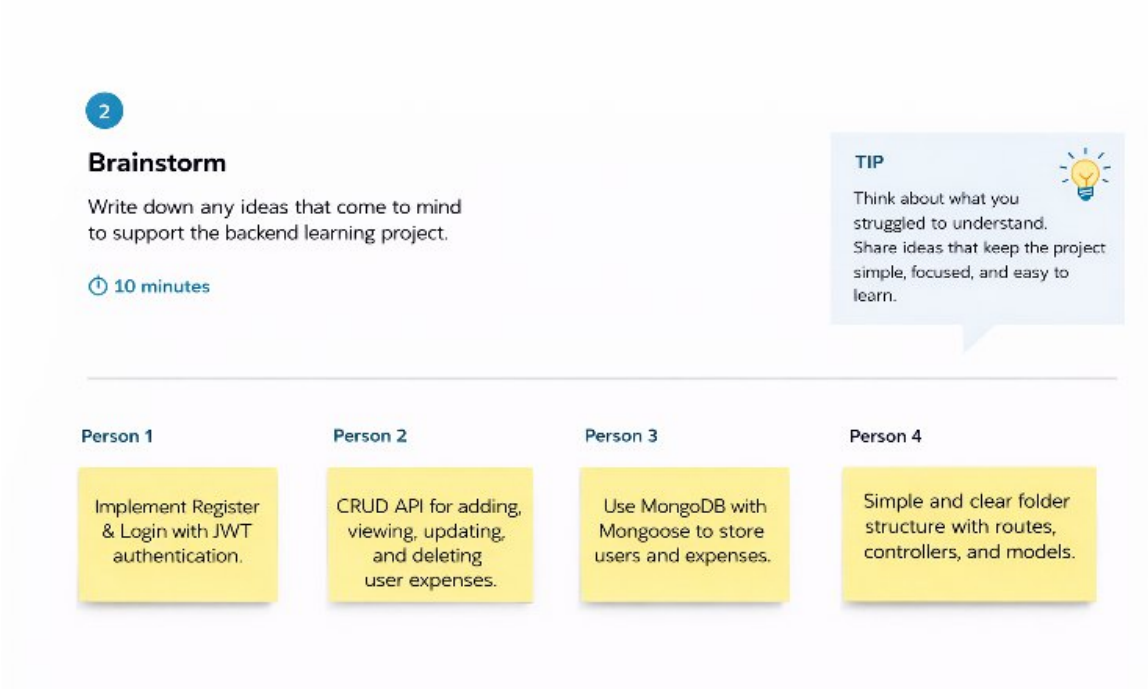
Brainstorm & Idea Prioritization Template:

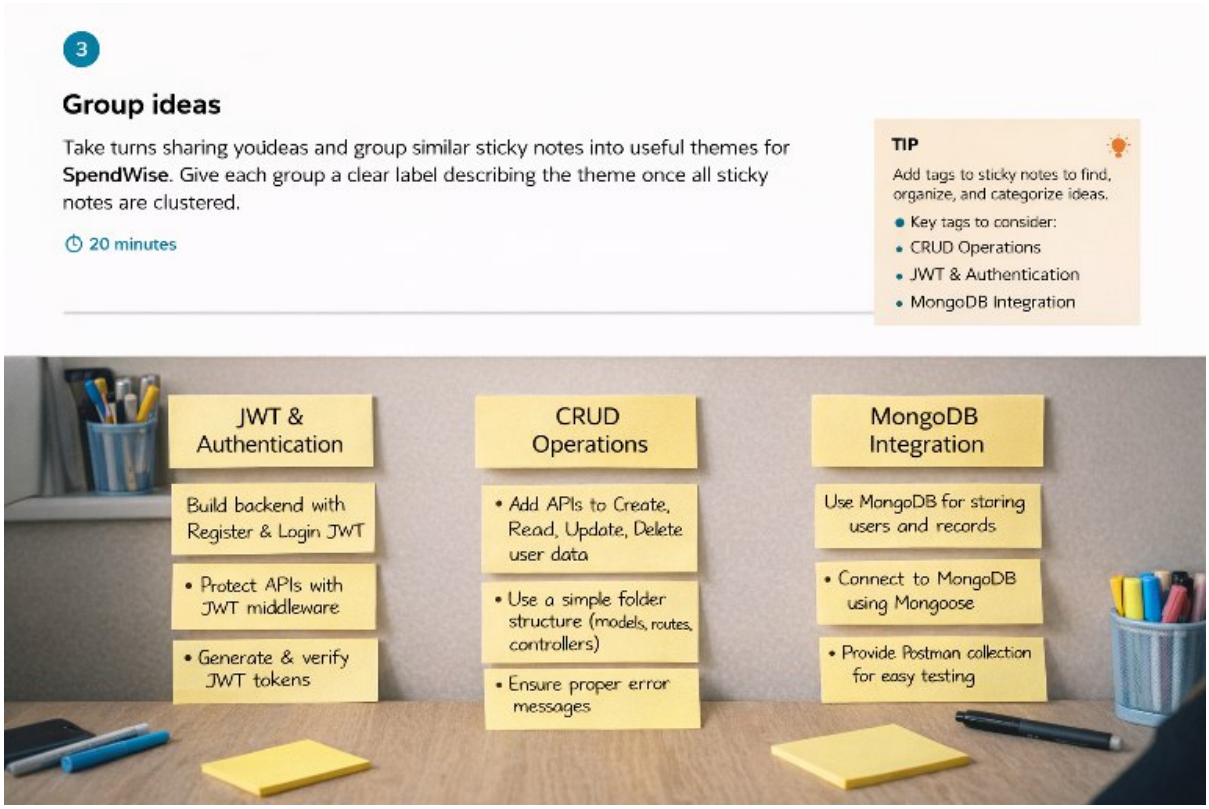
Brainstorming creates an open environment where team members can freely share ideas to solve a problem. For SpendWise, the goal is to generate simple, practical ideas that help students learn backend development. All ideas are first listed without judging, then grouped, and finally prioritized based on usefulness and feasibility for beginners.

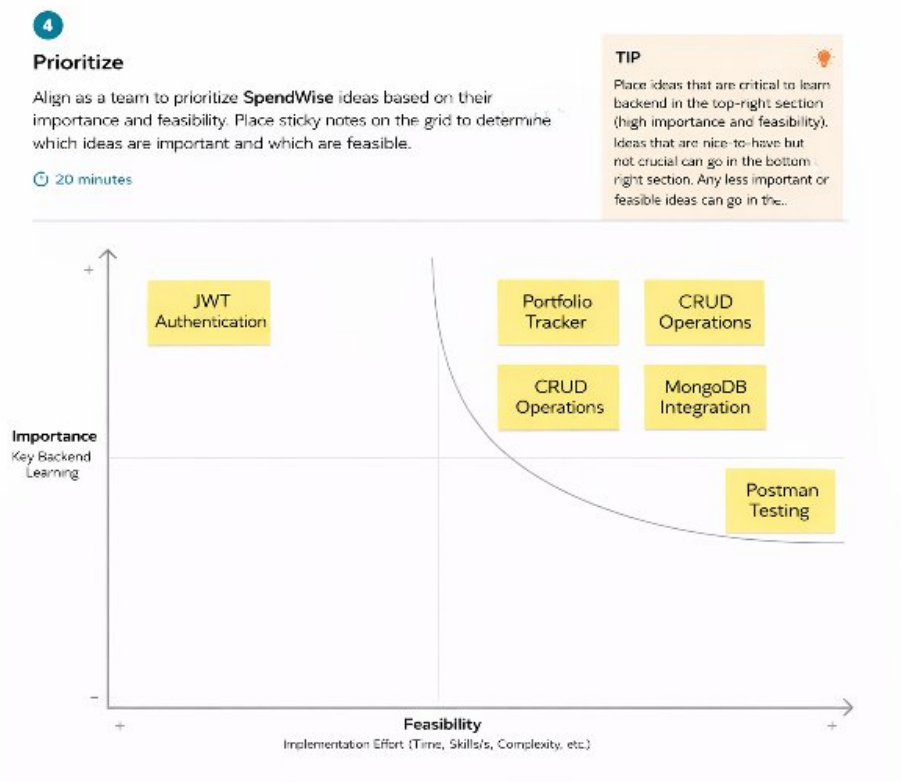
Step-1: Team Gathering, Collaboration and Select the Problem Statement



Step-2: Brainstorm, Idea Listing and Grouping







Step-3: Idea Prioritization
